

## **Mojonnier Road Reconstruction – Addendum No. 1**

### **ATTENTION: ALL BIDDERS**

**This addendum addresses questions and clarifications to the Request for Statements of Qualifications (RSQ) for the Mojonnier Road Reconstruction Project.**

1. Clarification: Under Schedule, “Bid Ready Plans and Specifications due to City” should be replaced with “75% Design Plans ready for right of way acquisition due to City.” The intent is to get the project engineered to 75% so that right of way needs are clear and right of way acquisition can begin in early 2023.
2. The City received a question asking what the estimate or overall budget is for this project.  
The total project funds for engineering have been estimated at \$451,840.00
3. The City received a question asking if there is a specific cross section intended for the project.  
The project boundaries and cross section submitted for funding are attached as Exhibit A, on page 2 of this addendum.

Exhibit A
